

ROADING INDUSTRY

Products designed to meet the needs of New Zealand's roading & infrastructure specialists.

Fluid Chemicals NZ is a New Zealand owned and operated company that makes and sells specialised cleaning products used across a range of industries in New Zealand. Our products are manufactured on site in New Zealand allowing us greater control to respond quickly to our customers needs. From slip coatings to workshop solvents and heavy duty hand cleaners, we carry the full range. Fluid Chemicals representatives are able to offer expert advice on product & equipment requirements tailor made for both permanent and mobile asphalt plants.

SLIP AGENTS

We have three slip agents available: Roller Slip, Superslip and Rapsody. Super Slip & Rapsody provide cost effective slip release and are capable of dealing with a range of hot mix preparations. Both Roller Slip and Super Slip can be added to the water tank for application on rollers which prevents sticking and costly downtime. They can also be applied directly to paving tools to prevent buildup. All products are:

- Biodegradable
- Easy to apply
- pH neutral

EQUIPMENT & CHEMICAL PACKAGES DESIGNED TO SUIT YOUR BUSINESS

Our team of specialists are familiar with the equipment and chemical needs of your business so are able to supply packages to suit. From hand cleaners to brushware, Fluid Chemicals are able to provide a range of products and dispensing equipment including:

- Foamers
- Diluters
- Brush-ware
